PIN MONEY.

The customers of this store make good, generous pin money on the savings which we afford them in prices. Pennies saved on little articles and dollars saved on big ones foot up in a week or a month to a tidy little sum. It pays in the long run to count the pennies to make every dollar go its full length to get the biggest value possible for every hundred cents. You give good value for each dollar. You earn it, and it is your right and privilege to demand equally good value for each dollar received.

what in proportion to the increase in

the cost of living. In private employment this has apparently taken place

the average wages per hour reported by the federal bureau of labor being

17.36 per cent higher in 1904 than in

1896 and the average weekly earnings 12.76 per cent higher. The advances

thus represented are spread all over the

country; they characterize every pri-

vate industrial enterprise and have

benefited all classes of workmen em-ployed in private undertakings.

How is it with public employment?

A few undertakings conducted under

public ownership employ labor like

that similarly serving private employers in the same communities, and in these cases the public rate of wages

has slowly been advanced somewhat in proportion to the advance in the wages privately paid. But where any

American government, municipal, state or national; is the sole or by far the largest employer of a particular class

of labor the advances to meet increas-

ed cost of living have been so few that the ordinary investigator will be un able to discover a single instance.

Throughout the postal service, among the 25,000 clerical employees at Washington, in the customs and internal revenue services there have been no

advances in pay to meet the rise in

cost of food, clothing and shelter. The

pay of letter carriers, for example, re-
